

It's 8.00 am

```
graph TD; A([It's 8.00 am]) --> B[Sleeping];
```

The diagram consists of two main components connected by a downward-pointing arrow. The top component is a light blue rounded rectangle containing the text 'It's 8.00 am'. The bottom component is a bright green rectangle containing the text 'Sleeping'. The arrow indicates a logical flow from the condition to the action.

Sleeping
